High School Profile 2016-2017

History and Philosophy

This year, KAIS celebrates its 10th year serving the Tokyo, Japan, international community. Small by design, KAIS provides students with a holistic education – one that emphasizes the academic, the creative, and the physical. To that end, students take demanding courses, study the creative arts, and engage in rigorous physical activity through our sports and yoga programs.

School and Community

KAIS is a private, independent, English-speaking day school. The student body is very diverse, with 13 nationalities represented in a student body of 36. The classroom experience is enriched with all-school field trips, after school clubs and sports, and other activities that expose students to the culture of Japan and the cultures of their classmates.

Athletics

KAIS is a member of the International Schools of Tokyo Athletics Association (ISTAA). In the 2015-2016 school year, KAIS fielded boys' and girls' basketball, futsal, and volleyball teams.

Advanced Placement and PSAT Testing

In the 2014-2015 school year, KAIS was able to offer on-site Advanced Placement and PSAT testing to its students for the first time. We will continue to offer such testing at KAIS and look forward to increased participation in both programs.

Electives

Due to the popularity of the Robotics Club and student demand, Robotics is now offered as an elective course at KAIS. Students have the opportunity to participate in robotics competitions in Japan and in greater Asia.
